

Apple Stamping

Supplies: Apples, acrylic paint, paper, paper plate for paint, forks (to hold apple, optional) (sharp knife for adults)

Directions:

Cut apples in half and let dry a few minutes (helps to make the paint stick)

A vertical cut will give you an Apple shape

A horizontal cut will give you a star shape

Put puddles of paint onto paper plates or newspaper

Using a fork, pierce the uncut side of the apple and use as a handle to dip into the paint. Or using your hands, dip apple pieces into the paint and then stamp the shape onto clean paper.

Experiment with cutting different shapes. Have FUN!

Another option is to stamp onto fabric—aprons, tablecloths, napkins, etc.
